## THE THRILL OF PERFORMANCE.

From the experience gained by the technicians of the Scorpion on different racetracks, from Trofeo Abarth to Formula 4, comes the new 1.4 T-Jet 160HP engine, featuring a new Garrett turbine, a more permeable intake and a new compression ratio. The new engine, with a specific power of 114 HP/litre, accelerates the 595 Competizione from 0-100 km/h in 7.6 seconds. Power and lightness ensure the most dynamic and ready driving than ever.

## MAXIMUM ACTION, MAXIMUM REACTION.

The braking system is oversized with front fixed red aluminium 4-piston caliper: the front brake disc is perforated, self-ventilated and decomposed into two materials, for maximum weight reduction and unsprung mass. This braking system, developed by exploiting our racing know-how guarantees very short braking distances, quick braking and a sporting and safe pedal feeling even after extended use.

## THE CERTAINTY OF CONTROL.

The lowered sports suspensions and the shock absorbers equipped with FSD (Frequency Selective Damping) valve, guarantee maximum ground grip and precise cornering. The 17inch Formula rims with 205/40 ultra-low profile high grip tyres, guarantee perfect road holding and safe breaking even on wet surfaces. Short wheel base and direct steering provide record breaking agility.

## A DISTINCTIVE STYLE, ALWAYS.

The tapered surfaces reduce forward air resistance, increasing top speed and reducing consumption. Every detail is designed to improve performance: the side air intakes on the front bumper provide the right amount of air to the engine and the intercoolers; the front bumper, side skirts, spoiler and rear diffuser help to “glue” the car to the road.

## A RANGE OF EXCLUSIVE FEATURES.

Beginning with the digital instrument panel with TFT 7inch colour display; the cut steering wheel with ergonomic grip leather saddled with visible seams; the Abarth Corsa racing lightweight shell seats by Sabelt with 595 logo stitched on the headrest gives ultimate comfort without sacrificing sportivity.

#### **1.4 TURBO T JET 160 HP**

- T-JET 4-cylinder in-line engine, 1368 cm<sup>3</sup>
- Power: 160 HP @5500 rpm
- Maximum torque: 230 Nm @3000 rpm (sport mode)
- Acceleration: 7.6 sec. (0-100 km/h)
- Top speed: 209 km/h
- Available with sequential automated gearbox and steering wheel shift paddle

#### **MAIN STANDARD EQUIPMENT**

- TTC (Torque Transfer Control)
- Copaf front suspensions with FSD (Frequency Selective Damping) technology
- Koni rear suspensions with FSD (Frequency Selective Damping) technology
- Four-piston aluminium fixed brake callipers
- Self-ventilated oversized 305x28 mm perforated front disk brake

- Self-ventilated 194x11 mm perforated rear disk brake
- 17inch Sport alloy rims with 205/40 ZR17 tyres
- Abarth Corsa fabric racing seats by Sabelt
- 7inch TFT colour display instrument panel
- Manual climate control
- Leather steering wheel with integrated controls
- Blue&Me™ hands-free system with USB port, Bluetooth® and MP3 radio
- Split rear seats with head restraint
- Xenon headlights
- Fog lights
- Rear parking sensors
- Lateral Abarth sticker
