

RANGE ROVER EVOQUE

ABOVE & BEYOND

ABOVE & BEYOND

Ever since the first Land Rover was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomise the values of the designers and engineers who have created them. Each one instilled with iconic British design cues, delivering capability with composure. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.

THE EVOQUE MARKS A BOLD EVOLUTION OF RANGE ROVER DESIGN. WITH ITS DRAMATIC RISING BELTLINE, A MUSCULAR SHOULDER RUNNING THE LENGTH OF THE VEHICLE, AND A DISTINCTIVE TAPER TO THE FLOATING ROOFLINE, RANGE ROVER EVOQUE ADOPTS A VERY DYNAMIC PROFILE WITH A POWERFUL AND ATHLETIC STANCE.

Gerry McGovern.
Land Rover Design Director and Chief Creative Officer.

DESIGN

EXTERIOR

With its striking lines, muscular shoulder and tapered roof, Range Rover Evoque sets itself apart from its contemporaries.

Whether discovering hidden parts of town or being seen in all the right places, it's always ready for action. Striking the perfect balance between distinctive exterior design, a contoured cabin, capability and performance, the vehicle defines contemporary city life.

The Daytime Running Lights (DRLs) have a new shape creating a distinctive signature which also serves as the directional indicator where it flashes amber.

Image shown right is HSE Dynamic five-door in Yulong White.
Exterior paint colour shown is not available in market.
Please see page 46 or contact your local Land Rover Retailer for available options.

INTERIOR

A range of individual features provide added appeal to the clean, architectural shapes of the vehicle's interior. The all-new seats ensure a truly relaxed and comfortable ride. Details include the use of premium materials such as Oxford leather and twin-needle stitching.

The cabin is also complemented by new-look door insert finishings which are enhanced further by deeply padded premium materials.

The infotainment centre in Range Rover Evoque allows music to be heard and felt the way it should. Bright trebles. Deep bass notes. Rich tones that let every instrument sing.

These are the characteristics of the **Meridian™ Sound System**. Added to which, the vehicle's 20.32 (8) Touch-screen has 800 x 480 pixel resolution, InControl Touch, Bluetooth® streaming.

Finally, **Configurable Mood Lighting** is also controlled via the Touch-screen. With a range of ten colours on offer, the brightness can be dialled up or down to suit every occasion. A 'Stealth' setting is also available to reduce cabin illumination to a minimum.

Interior shown left and above is HSE Dynamic five-door in Ebony with Lunar stitch. Interiors shown are not available in market. Please see page 46 or contact your local Land Rover Retailer for available options.

The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Land Rover is under licence.

DRIVING TECHNOLOGY

TERRAIN RESPONSE®

Land Rover has always been synonymous with capability and Range Rover Evoque lives up to even the most demanding expectations. Confident and responsive, the drive is further enhanced by a generous wheel articulation and innovative off-road technologies such as Terrain Response®.

This feature adapts to the responses of the vehicle's engine, gearbox, differentials and chassis systems to maximise driveability, comfort and traction.

There are four Terrain Response® settings: General Driving, Grass/Gravel/Snow, Mud & Ruts and Sand. So, the vehicle feels sure-footed no matter what the terrain or weather conditions.

Image shown left is HSE Dynamic five-door in Yulong White.
Exterior paint colour shown is not available in market.
Please see page 46 or contact your local Land Rover Retailer for available options.

HILL DESCENT CONTROL

Land Rover's patented Hill Descent Control (HDC) assists the driver with controlled descents of difficult slopes by maintaining a constant speed and applying braking separately to each wheel.

Hill Start Assist ensures the vehicle doesn't roll backwards as it pulls away on an incline. The vehicle also utilises **Gradient Release Control (GRC)** which is designed to prevent the vehicle accelerating too quickly on a steep incline when the driver releases the brake.

Image shown left is HSE five-door in Fuji White.

FINISHING TOUCHES

MERIDIAN™ SOUND SYSTEM

Land Rover has partnered with Meridian, a world leader in audio technologies and digital sound processing, to develop advanced audio systems for Range Rover Evoque.

The 380W Meridian Sound System features 12 channels and 11 loudspeakers including a dual-channel subwoofer. The Meridian Surround Sound System is also available and produces an incredible 825W of surround sound through 15 channels and 17 loudspeakers including a subwoofer.

Digital Signal Processing (DSP) allows a speaker to perform with the characteristics of a speaker of eight times the volume.

The result is the very best in world-class audio reproduction with sound that can be felt and heard, just as the artist intended.

Also pioneered by Meridian is Trifield technology which ensures a perfect stereo image for each occupant, producing an holistic sound within the cabin to further improve the concert-like experience.

A special feature, Dynamic Volume, detects variations in the cabin and balances out the sound quality so that it's consistent throughout the car.

Meridian is a registered trademark of Meridian Audio Ltd. CD and MP3 disc and file compatibility for your iPod® or other MP3 devices is standard.

Image shown right is HSE Dynamic five-door in Fuji White.

MERIDIAN SURROUND SOUND SYSTEM

 825 WATTS

 16 LOUDSPEAKERS

 SUBWOOFER

DRIVER AIDS

COMMAND DRIVING POSITION

The signature Land Rover Sports Command Driving Position ensures the driver benefits from a greater view of the road ahead. However, in Range Rover Evoque, it has a sportier feel allowing the driver to be more connected to the drive. So whatever the city or terrain demands, it can be tackled with confidence.

Image shown above is HSE Dynamic five-door in Yulong White. Exterior paint colour shown is not available in market. Please see page 46 or contact your local Land Rover Retailer for available options.

HEAD UP DISPLAY

Head Up Display is a technology option that presents key vehicle data such as road speed and gear position on the windscreen, without distraction or the need for the driver to take their eyes off the road. In a world first, the Land Rover system features laser holographic techniques, resulting in superior colour saturation, brightness and contrast.

This innovative laser system is more robust against issues such as 'washout' – the effect that the glare from sunlight has on inferior LED-based systems.

SURROUND CAMERA SYSTEM

Using five digital cameras mounted around the vehicle, this system provides an all-round view of your surroundings on the full-colour Touch-screen, assisting in tight manoeuvring.

Graphics used above are for visual representation only. Please contact your nearest Land Rover Retailer for further information.

COMFORT FOR ALL

CONFIGURABLE MOOD LIGHTING

Mood Lighting adds to the calm, contemporary atmosphere. No matter what the light is outside, it's always comfortable inside.

Configurable Mood Lighting is also available, again controlled via the vehicle's Touchscreen, with a range of ten configurable colours available. The brightness of the ambient lighting is also configurable, and a 'Stealth' setting is available to reduce cabin illumination to minimum. Create the mood. Enjoy the surroundings. Get more out of the drive.

PANORAMIC ROOF

The full-size, fixed panoramic glass sunroof enhances the sense of space and light, as well as providing uninterrupted views of the surrounding environment.

Importantly, the toughened glass has a dark tint to maintain a comfortable temperature inside the cabin and protect occupants and the interior from the sun's rays. A full-sized, powered interior blind is also provided for those who may prefer a more private experience.

Interior shown right is HSE Dynamic five-door in Ebony with Lunar stitch. Interiors shown are not available in market. Please see page 46 or contact your local Land Rover Retailer for available options.

COMFORT FOR ALL

REAR SEAT ENTERTAINMENT

Range Rover Evoque's Rear Seat Entertainment system has the ability to play Video and route it through two 20.32 cm (8) screens located in the back of the front headrests. The system can also play MP4 Video Files stored on a USB Device plugged into a USB Port located in the vehicle.

The Rear Seat Entertainment system comes with a remote control, which allows intuitive operation. Two wireless digital headphones featuring WhiteFire® technology provide high quality sound and clarity to passengers.

USB CHARGING POINTS

Connectivity is state-of-the-art with Bluetooth® streaming as well as USB/iPod® connections for hands-free phone operation and a choice of listening while on the move.

POWERED GESTURE TAILGATE

Opening and closing is further enhanced with the option of a hands-free powered tailgate. This will allow the driver to operate the tailgate (both to open and close) from outside the vehicle without needing to physically touch either the vehicle or the remote key fob.

Provided that the key fob is detected, the tailgate may be operated by waving a foot underneath the rear of the vehicle.

Additionally, two sensors mounted on either side of the tailgate allow kerbside operation, rather than needing to be immediately behind the vehicle.

The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Land Rover is under licence. WhiteFire® is a registered trademark of Unwired Technology LLC and any use of such marks by Land Rover is under licence. iPod® is a registered trademark of Apple Inc., registered in the US and other countries. Please contact your nearest Land Rover Retailer for available interior and exterior colour options.

LAND ROVER INCONTROL

INCONTROL TOUCH

InControl Touch is the command centre for a wealth of features designed to make your driving experience more entertaining and safer. It features a contemporary and fresh graphical design displayed on an 20.32 cm (8) Touch-screen. It is the central hub from where you can connect and control your chosen entertainment and media. You can therefore enjoy an unimaginable amount of music and imagery all within one simple to use system.

The ability to connect your smartphone via Bluetooth® is also available. InControl Touch provides all of the capabilities that you need such as navigation system, Bluetooth® connection on your phone, ECO Data functionality and the Land Rover 4x4i function.

iPhone® is a registered trademark of Apple Inc., registered in the US and other countries.

The Bluetooth® word mark and logo are owned by the Bluetooth SIG, Inc. and any use of such marks by Land Rover is under licence.

Features and their availability may differ by vehicle specification and market. Please contact your Land Rover Retailer for further information.

ENGINES

NINE-SPEED AUTOMATIC

The lightweight, compact nine-speed automatic transmission provides optimum fuel economy and CO₂ emissions as well as greater control in low-grip conditions or when towing through the specially designed, ultra-low first gear.

The nine-speed automatic transmission is specifically designed for transverse applications, and is one of the most efficient and technically advanced transmissions ever used in a production vehicle. Smaller ratio steps give improved response during

acceleration, improved shift quality, drive and refinement.

The higher top gear not only reduces fuel consumption but the lower engine revs improve comfort and reduce noise when cruising at a sustained speed.

The nine-speed automatic is extremely robust and perfectly complements Land Rover's rugged all-terrain ability whilst delivering exceptionally high levels of refinement and efficiency.

Image shown above is HSE in Corris Grey.
Exterior paint colour shown is not available in market. Please see page 46 or contact your local Land Rover Retailer for available options.

DW12 ENGINE

Proven on tracks, test beds and under the most difficult conditions imaginable, the 2.2 litre DW12 Diesel engine comes in SD4 140kW four-wheel drive.

Presented in automatic transmission only, the drive select system is available with a rotary gearshift and steering wheel mounted paddle controls. 7.5 kg lighter than its

six-speed predecessor, its nine-speed transmission delivers greater control with improved fuel economy and, in low-grip situations or when towing through the ultra-low first gear, it makes handling easier. Helping to deliver a smoother, more connected and intuitive drive coupled with lower CO₂ emissions.

STRENGTH AND STABILITY

BODY

Range Rover Evoque features an extremely strong, lightweight body structure which has been developed using advanced, weight-saving materials to deliver outstanding stiffness and refinement together with excellent crash performance.

The structure is based on a steel monocoque platform. Delivering the exciting design and sporting dynamics of Range Rover Evoque dictated that an all-new structure was developed. Lightweight technologies are used extensively in the body design, including:

- Front fenders and tailgate assembly
- Magnesium cross car beam
- Optimised steel structure with 18 percent high strength Boron steels.

OPTIMISED STRUCTURE

The use of special ultra-high-strength steels in strategic load-bearing areas was a key design objective. The finished steel structure uses 18 percent (by weight) of high strength Boron steels. These specialised steels deliver increased strength in critical areas, without the need to increase the thickness and weight of the pressings.

The ultra-high-strength Boron steel has been used in key parts of the crash safety cell, including the A and B-pillars and the sills. The resulting structure protects occupants using an incredibly strong and stable safety cell, and provides a very stiff platform for superior NVH and vehicle dynamics.

The use of ultra-high-strength Boron steel in the A-pillar was critical in retaining the slim, raked pillar of the vehicle, without compromising the strength and safety of the structure.

Range Rover Evoque's optimised steel structure protects occupants using an incredibly strong and stable safety cell, which is complemented by a comprehensive system of airbags and restraints including driver and passenger airbags, knee airbags, and side curtain and thorax airbags.

The crash structure was optimised using state-of-the-art computer simulation tools, which allowed engineers to conduct 'virtual' crash tests long before physical prototypes were available.

Pedestrian safety has been given a very high priority, with a carefully optimised design for the front-end, bumpers, bonnet and cowl area to minimise potential injuries.

CHASSIS AND VEHICLE DYNAMICS

Range Rover Evoque has a chassis which has been specially developed by Land Rover's engineers to deliver on-road dynamics which combine sporting and agile responses with impressive refinement, while not compromising all-terrain capability.

Range Rover Evoque has fully independent suspension, with coil sprung struts front and rear, and isolated front and rear subframes, mounted to an exceptionally stiff steel monocoque bodyshell. The performance of the base suspension system is supplemented by advanced technologies such as an intelligent four-wheel drive system.

The chassis features a number of innovations, such as Electric Power Assisted Steering (EPAS), which help the car achieve its unique dynamic character and improved efficiency.

ENVIRONMENTAL

SUSTAINABILITY

Range Rover Evoque is the smallest Range Rover ever. Its credentials stem from a comprehensive approach to reducing environmental impact throughout the life-cycle of the car. Its compact size has helped Range Rover Evoque minimise weight, improve aerodynamic performance, and deliver more sporting, agile handling with a lower centre of gravity.

Such radical thinking and production processes bear testimony to Land Rover's unwavering commitment to deliver a more sustainable future.

ADVANCED LIGHTWEIGHT MATERIALS

To optimise vehicle performance and efficiency, Range Rover Evoque has been developed using a range of advanced lightweight materials, Range Rover Evoque is the lightest Range Rover ever. There are key weight-saving materials throughout the vehicle, including an aluminium bonnet and roof and a magnesium cross car beam. The front fenders and tailgate assembly are constructed from composite materials.

Even the thickness of the laminated windscreen is reduced to save weight and improve fuel efficiency, performance and handling.

The interior has also been independently tested by a leading international consultancy to ensure that all occupants enjoy an allergy-free environment. With 14.9kg of recycled plastic and 21kg of renewable and natural materials in each car, it's taking big steps to reduce its environmental footprint.

One particular innovation in the use of recycled material is the use of 95 percent recycled aluminium in the authentic metal interior finishers used on all models.

Image shown left is HSE Dynamic five-door in Yulong White. Exterior paint colour shown is not available in market. Please see page 46 or contact your local Land Rover Retailer for available options.

RANGE ROVER EVOQUE OFFERS YOU GREAT FLEXIBILITY TO PERSONALISE YOUR VEHICLE.

2

EACH MODEL HAS UNIQUE FEATURES.

This guide will help you to select your ideal Range Rover Evoque. On the following pages you'll see the key standard features for each model.

RANGE ROVER EVOQUE PURE

- Exterior mirrors – electric adjustment, heated, power fold, puddle lamps with projected Evoque graphic, direction indicators
- Rain sensing windscreen wipers and automatic headlamps
- Oxford leather steering wheel
- InControl Touch, Land Rover eight-speaker sound system
- Cruise control
- 20.32 cm (8) Touch-screen
- Rear parking aid.

RANGE ROVER EVOQUE SE

- Exterior mirrors – electric adjustment, heated power fold, puddle lamps with projected Evoque graphic, direction indicators, memory function with auto-dipping in reverse gear
- Navigation System*
- 12-way/12-way – Grained leather adjustable electric memory seats
- Auto-dimming interior mirror
- Front parking aid
- Parking aid - rear camera including hitching guidance
- Fixed Panoramic Roof
- Xenon headlamps with Powerwash
- Contrast Painted roof
- Rear Climate Control vents.

*Terms and conditions apply. Please see page 40 for more information.

RANGE ROVER EVOQUE HSE

- Chrome treadplates
- 11 speaker, 380W Meridian™ Sound System
- Configurable interior mood lighting
- Head-up display
- Premium Carpet mats with edging
- Keyless entry
- Gesture Tailgate.

RANGE ROVER EVOQUE HSE DYNAMIC

- Dynamic Bodystyle
- Bonnet louvres – Narvik Black
- Perforated Oxford leather steering wheel
- Illuminated treadplates – Range Rover lettering
- Textured Aluminium finisher
- Exhaust finishers – dynamic bright
- Surround Camera System
- 17 speaker, 825W Meridian™ Surround Sound System
- Rear Seat Entertainment.

LAND ROVER APPROVED ACCESSORIES

Range Rover Evoque is so capable and adaptable it can get straight to work across a huge variety of vastly differing conditions and roles. Even so, some owners want to add their own stamp of individuality by tailoring their Range Rover Evoque to their specific needs with a range of stylish, practical accessories that are tough, versatile and bring an opportunity

for personalisation to Range Rover Evoque. Importantly, these accessories can be added at any stage during the vehicle's life – not just when it's new. Naturally, Land Rover Approved Accessories are designed, tested and manufactured to the same exacting standards as the original equipment fitted to your vehicle.

Side Steps*
VPLVP0255 – Pure, SE and HSE
VPLVP0208 – HSE Dynamic

Complete with a rubber tread mat and brushed stainless steel trim, this product provides easy access to the vehicle's cabin and aids access to the roof. With laser etched Range Rover branding and exterior bright work, they truly complement the vehicle's striking lines and confident stance.

Side Tubes*
VPLVP0184 – Pure, SE and HSE (Shown above)
VPLVP0202 – HSE Dynamic

Manufactured from stainless steel with a highly polished finish. Its rugged off-road appearance complements the vehicle's exterior design.

Vehicle Decals

Available in four decal designs to customise your vehicle. For the full range of colour choices and designer's choices guide please visit accessories.landrover.in
Image shown above is the Chequer decal option.

Carbon Fibre Side Vents
VPLVB0112

Stunning high-grade Carbon Fibre Side Vents with a high gloss finish provides a performance-inspired styling upgrade. Supplied as four pieces.

Carbon Fibre Bonnet Louvres
VPLVB0113 – HSE Dynamic

Complementary high-grade Carbon Fibre Bonnet Louvres with a high gloss finish. Supplied as a pair.

*Fitting of side steps or side tubes may effect the off-road capability of the vehicle.

Sports Exhaust Finishers
VPLVB0107 - Pure, SE and HSE

Premium polished Sports Exhaust finishers accentuate the vehicle's performance.

Front Mudflaps
VPLVP0065 - Pure, SE and HSE (shown above)
VPLVP0066 - HSE Dynamic

Rear Mudflaps**
VPLVP0069 - Pure, SE and HSE (shown above)
VPLVP0070 - HSE Dynamic
Mudflaps to reduce spray and help protect paintwork.

Range Rover Centre Cap
Range Rover branded alloy wheel centre cap.

Styled Valve Caps

There is an exclusive range of styled valve caps providing choice of Range Rover and Land Rover branded caps, Union Jack and Black Jack. These provide a subtle styling enhancement.

Loadspace Rubber Mat
VPLVS0091

Waterproof with retaining lip and non-slip surface.

Loadspace Treadplate*
LR039098

Range Rover Evoque stainless steel loadspace treadplate finisher.

Rigid Loadspace Protector (shown above)
VPLVS0089

Easy access to tie-down points where fitted.

Cargo Barrier Full Height (shown above)
VPLVS0220

Cargo Barrier Half Height
VPLVS0218

Tailgate Seat
VPLVP0253

Removable moulded tailgate seat provides convenient seating on rear loadspace lip for occasional use. It sits over the rear tailgate retaining to the loadspace floor. It is supplied with a branded Range Rover Stowage bag that secures against the second row seatback for convenient stowage.

Loadspace Organiser
VPLVP0323

Convenient Loadspace organiser tray provides segregated compartments to stow delicate items or separate shopping/cargo. Featuring Lockable Lids, it is secured via Loadspace D Loops.

*Available for Pure vehicles only.

Luggage Retention Kit*
VPLCS0324

To secure luggage within the loadspace. Includes both flexible and rigid luggage retainers.

Rear Seat Cover
VPLVS0312

Protects both the rear seat bench and door linings from wet and dirt.

Sports Pedal Covers
VPLHS0044 – Automatic transmission vehicles (shown above)
Sports Footrest
VPLVS0177

Centre Armrest Cooler/Warmer Box
VPLVS0176

This convenient drink and food cabinet is ideal for use on long journeys and can also be used as a rear centre armrest.

Coat Hanger
VPLVS0167

Rear seat facing, attaches to the head restraint posts. Maximum load capacity 3kgs.

Sunshades
Second Row
VPLVS0322

Tailgate
VPLVS0320

Easy to install or remove these sunshades provide increased comfort helping to protect passengers from heat and glare of the sun. Versions are available for the second row and rear tailgate.

iPad® Holder
VPLVS0165 – iPad®**
VPLVS0164 – iPad® 1

Provides secure mounting for your iPad®. Rear seat facing, attaches to the head restraint posts.

*Requires Loadspace Luggage Rails – VPLVS0102 when not fitted as standard.

**Compatible with 2nd, 3rd and 4th generation iPad®. Not compatible with iPad Air®. iPad® is a registered trademark of Apple Inc., registered in the US and other countries.

Premium Carpet Mat
VPLAS0201PVJ – Ebony (shown above)
VPLAS0201AMM – Espresso
VPLAS0201LAA – Lunar

LAND ROVER EXPERIENCE

Ever since its inception, Land Rover has been ready for anything. Its legendary capability has seen it tackle the most demanding of terrains, in the most difficult conditions. Its versatile interior has become synonymous with comfort and greater loadspace. And its 'can do' attitude has made it the most welcome of vehicles across the globe.

You can be part of the Land Rover story at one of our Land Rover Experience Centres. You can see how each and every one of these iconic vehicles is built. You can take one out onto off-road tracks where your driving skills will be put to the test. Or you can go even further on one of our Adventure Travel holidays to such countries as Tanzania, Iceland or Morocco.

Adventure awaits.

BEHIND THE SCENES TOURS

Ever wanted to discover how your Land Rover was built? To see the incredible journey upon which each and every one of our vehicles travels before you receive it?

You can experience how it is created using state-of-the-art technologies, the most efficient processes, the finest materials and British Craftsmanship at our facilities around the world.

From on-demand ordering of parts, to final trim and quality tests, the entire process will come to life before your eyes. It's a truly impressive display of engineering, craft and precision; one that you can then physically enjoy by taking a vehicle out onto one of our Experience Drives.

EXPERIENCE DRIVES

Wading through mud. Crossing a Tipping Bridge. Or creeping up a slippery, steep incline. Our Experience centres have an array of obstacles and challenges to tax even the most accomplished of drivers.

Our experts will teach you how to navigate through some of the most demanding terrain. Then, you can take the skills that you have learned and use them when you drive every day.

There's a choice of courses from Taster Drives through to Full Day Experiences, available in over 40 Land Rover Experience operations around the globe. Each one provides a unique and hugely memorable adventure that you, your family and friends can all enjoy.

You'll never feel more confident behind the wheel.

ADVENTURE TRAVEL

Which destination would top your wish list of places to go on an adventure? The wide open, savagely beautiful plains of the Serengeti? Or simply exploring castles and manors around Britain? Well, you can revel in an epic adventure from the comfort and luxury of a Land Rover, assured in the meticulous planning and local insight for which Abercrombie & Kent is renowned. These two great British brands have come together to bring you a world of exploration, adventure and luxury in iconic worldwide destinations.

Each trip has a local guide and expert Land Rover instructors to provide support and guidance, ensuring you get the most out of your driving experience. Added to which, you will stay in boutique accommodation. Be part of an extraordinary journey, reimagined.

IMPORTANT NOTICE: Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. Whilst every effort is made to produce up to date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Distributors and Retailers are not agents of Jaguar Land Rover Limited by any express or implied undertaking or representation.

All Land Rover Approved Accessories fitted by a Land Rover Retailer within one month or 1,600 kilometres/1,000 miles (whichever occurs first) of the handover of a new registered vehicle will benefit from the same warranty terms and period of cover as the vehicle warranty. Accessories purchased outside of these parameters will be subject to a 12 month unlimited mileage warranty. All Land Rover Approved Accessories are rigorously tested to the same exacting standards as those applied to our vehicles. Performance in extreme hot and cold temperatures, corrosion resistance, impact and airbag deployment highlight some of the exhaustive product testing carried out to ensure accessories are both durable and importantly, continue to comply with current legislation. Some of the accessories featured are not available on all models. Please consult your nearest Land Rover Retailer for more information.

All our accessories are designed to be an integral part of Land Rover vehicles. While many items such as roof carriers are simple to fit, some products require specialist tools and diagnostic equipment to ensure correct integration with the vehicle structure and electrical systems. These products vary from market to market, please consult your Land Rover Retailer who will be pleased to advise you on current specifications and any query you may have.

The colours reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any colour finish without notice. Some of these colours may not be obtainable in your country. Please check availability of colours and current specifications with your Land Rover Retailer. Distributors and Retailers are not agents of Jaguar Land Rover Limited and have absolutely no authority to bind Jaguar Land Rover Limited to any express or implied undertaking or representation.

Castrol EDGE Professional exclusively recommended by Land Rover.
