RAPID

THE NEW ŠKODA **RAPID**

In 2011, ŠKODA Rapid began its journey here in India. And on the way, it has won several accolades and a million hearts. But this journey is far from over.

Performance and Style are the two facets that have always defined the ŠKODA Rapid. And it's been a challenge deciding which of the two is more impressive.

Now with the arrival of the Rapid's latest edition we aren't making this decision any easier. With upgraded performance and a revolutionary new design language, the debate isn't going to be settled any time soon.

DESIGN

The new ŠKODA Rapid is a masterpiece in the truest sense. It stays loyal to the brand's timeless design ideals while simultaneously incorporating avant-garde elements.

Flip through to find out more about what has gone into making the new Rapid the design phenomenon it is.

They say, a face makes the first impression. If that's true, the new Rapid, hands down, makes a great one. The dark façade of the new ŠKODA Signature Grille perfectly complements its chrome surround. And above this, proudly rests the ŠKODA badge of honour.

EXTERIOR DESIGN

As a tribute to ŠKODA's rich Czech heritage, the new Rapid incorporates the brand's trademark crystalline design language. In its sharp angles and contours one can unmistakably trace the inspiration back to traditional Bohemian crystals. And much like these crystals, the Rapid too is recognised by the mesmerising symphony its angles create between light and shade.

Light up every inch of the road with meticulous precision using the Quartz-cut Projector Headlights with its manual levelling function.

Eyes as striking as the Rapid's, deserve the best embellishments. And what better than the mesmerising chrome eyelash effect meeting the Jewel-shadow LED Day Running Lights.

Be greeted by the luxurious metallic feel of chrome beneath your fingers every time you enter the new ŠKODA Rapid.

The strong shoulder line meets the distinctive new ŠKODA C-shaped smoked taillights ensuring a strong appearance. And the chrome moulding on the deck lid will leave your followers on the road enchanted.

Sometimes, judging a book by the cover is the right thing to do, because the new Rapid is as exquisite on the inside as it is on the outside. The contrasting Dual-tone Ebony-Sand interiors effortlessly bring out the blend of traditional ŠKODA designs with modern ideas. And the Chrome décor ensures that no matter where the road takes you, you're never too far from luxury.

INTERIOR DESIGN

COMFORT & CONVENIENCE

COMFORT

The breathtaking designs of the automobile seamlessly lend themselves to the luxury features. The result - so much comfort, you'll wish your journey was your final destination.

You are truly in control only when it's on your own terms. Get just that with a height and length adjustable steering wheel.

Easily bring blind spots to light with electrically foldable and adjustable external mirrors. And make the accompanying side-turn indicators wink playfully.

Just when you start thinking
comfort couldn't get any
more comfortable, your arm
slides onto an armrest of the
plushest leatherette.

Power up Drive -
the state-of-the-art
6.5, Colour Touchscreen
Central Infotainment
System in your Rapid -
to give your drive the
symphony it deserves.
And what's more -
Drive comes equipped with
MirrorLink™ technology
which will literally
transform your car into a
Smart Automobile*.

Presenting the
revolutionary Climatronic
Automatic Air
Conditioning with dual
adjustable rear vents.
Now escape the madness
of reality and find a
temperature-perfect
utopia within your new
ŠKODA Rapid.

CONVENIENCE

It's a great feeling when everything's taken care of, isn't it? The new Rapid with its host of convenience features will leave you little else to do than enjoy your drive.

Your convenience is our top concern. Which is why, we have integrated your telephone controls to the Rapid's multi-function steering wheel. Now, you never have to let go of the wheel.

Now, long journeys are just going to be an excuse to pamper yourself. The built-in Cruise Control feature will maintain speed for you, allowing you to be at leisure and stress-free.

Always be picnic-ready by storing your refreshments in the thoughtfully cooled glovebox compartment.

The thrill of being in the driver's seat is rivalled only by the comfort of the rear seats. It comes with adjustable headrests and a folding armrest. And more legroom than your legs could wish for.

AmberGlow Footwell Illumination will ease ingress to and egress from your car. Now, no corner will be left to darkness.

You wouldn't expect something so beautiful to be intelligent. Be delighted with the Rain-sensing Wiper System which automatically activates on detecting rain and adjusts the wiper's frequency.

SAFETY

At ŠKODA, we believe that safety is a priority and not an option. Which is why we offer important safety features as standard in all variants of the Rapid.

The new ŠKODA Rapid with Jewel-shadow LED Day Running Lights never fails to make its presence felt. The uninterrupted rays of light improve the Rapid's safety by increasing other peoples' awareness of it.

The Rapid has eyes of its own. And you can rely on these Parktronic Sensors for assistance when manoeuvring into tight parking spots.

Tackle unwanted night-time glares with the automatically dimming rear view mirror.

With the One-touch Anti-pinch technology protecting you, presence of even the littlest obstacle will stop your windows from shutting.

The ABS (Anti-lock Braking System) boosts braking efficiency ensuring increased safety on loose terrain and emergency braking situations.

The Electronic Stability Control (ESC) synchronises ABS for improved behaviour when understeering or oversteering. (For diesel automatic transmission only)

Going uphill will never be an uphill battle with the Hill Hold Control (HHC) function on your automatic Rapid.

Height-adjustable seatbelts ensure you never have to make a compromise between safety and comfort.

Here's bringing you double the safety with Rapid's Dual Airbag system. Because when it comes to safety there should be no compromise.

STORAGE

A good relationship is one where you get enough space to yourself. And the new ŠKODA Rapid is the perfect partner which is thoughtfully designed to accommodate you and everything you might ever need.

460 litres of illuminated luggage compartment space

SmartClip card holder

Bottle holders in doors

Storage compartment in the front centre console, under front centre armrest

Cup holders, front and rear

ENGINES & TRANSMISSIONS

Don't let the luxurious comfort features of the Rapid mislead you. The DSG transmission with Sport mode will quickly transform this automobile into a beast.

Pop the hood and you'll find the new ŠKODA Rapid has a generous heart. And it comes in two variants – the TDI and the MPI engines. The 1.5 litre TDI engine is what brings alive the diesel variant of the new Rapid. It is optimised to deliver performance while still leading in fuel efficiency. It produces 110PS (81kW) of power and a torque output of 250 Nm.

The 1.6 litre MPI or the Multi-point Injection engine is at the core of the Rapid's Petrol Variant. With Dual Overhead Camshaft (DOHC) 16 valves, it delivers 105 PS (77kW) of power and a peak torque output of 153Nm.
